JESUS JIMENEZ

Software Developer

jesusalfonsojg7@gmail.com | Venezuela

GitHub | **Linkedin** | **Portfolio** | **Portfolio**

EDUCATION

Universidad Nacional Experimental del Tachira (UNET)   San Crsitobal, Tachira, Venezuela
Engineering Degree Computer Engineering   February 2019 - August 2026

EXPERIENCE

ZippyZen LLC | Software Developer   Charlottesville, VA | March 2021 - Present
Work remotely through an Upwork contract in the frontend and backend of a system that provides cloud solutions to Meals on Wheels Organizations in the United States and Canada. Also, I built their Android application—technology stack: Back-end: Python, Django, DBM: PostgreSQL, Front-end: JavaScript, VueJS. Android: Native/Kotlin.

SKILLS

Programming Languages:	C++, Python, Java, JavaScript, Kotlin, bash
Libraries/Frameworks:	Next.js, Django, VueJs, React, Node.js
Tools / Platforms:	Docker, Git, GitHub, GCP, Firebase console
Databases:	PostgreSQL, MySQL, MariaDB, Firebase

PROJECTS / OPEN-SOURCE

Portfolio web app   *Next.js 13, Firebase, OpenAI API*
Web app of my personal Software developer portfolio made with NextJs 13 (including app experimental folder), Firebase functions and OpenAI API for generative text and completions using davincii model.

GitHub API React Search | Link   *React*
I made this project as part of an interview process. The requirements were to create a frontend for displaying users from a search, then repos for the given user, retrieved from GitHub's API endpoints.

Rick and Morty React App | Link   *React*
React app made as a personal project, using React, state management, pagination, and The Rick and Morty API.

Rick and Morty Flutter App | Link   *Flutter*
Flutter app made as a personal project, using Flutter, and The Rick and Morty API.

Movies REST API project | Link   *JavaScript, VueJs, Python, Django, Docker*
I made this project as part of a job interview test, using Django as the backend, VueJs and Buefy for the frontend, Docker for containers, and the IMDB API to fetch JSON data of movies, series, and actors.

CERTIFICATIONS

- Developing Cloud Apps with Node.js and React - **Coursera**
- Vue - The Complete Guide - **Eduonix**
- React - The Complete Guide. - **Eduonix**
- Foundations of Node.js. - **Platzi**
- PostgreSQL Bootcamp. - **Udemy**
- MySQL y MariaDB. - **Platzi**
- Professional Python Developer. - **Platzi**
- Professional Git & Github Developer. - **Platzi**
- CCNA Routing and Switching: Introduction to Networks. - **Cisco**
